

French Film study day Year 8 student reflections

Tami Oniyitan

The movies were very interesting and each was different. It was lovely to recognise loads of French phrases and words. I also understood a lot of things the presenter was saying. It was a nice experience.

Isobel McCarthy

I really enjoyed the movie Belle et Sebastian; I felt it really developed my French language skills.

Aleena, Rekha and Bana

We really enjoyed the day, especially the movie. I really think our French vocabulary has improved a lot because we were doing French the whole day in an entertaining way. The questions at the beginning of the day were very entertaining and they were extremely helpful, and were especially helpful for the film. Also Madame Huet made what she was saying (in English and French) very clear so we understood everything she said. Merci Beaucoup.

Emily B

I really enjoyed the day because it was a full day of French and we learned a lot of new exciting vocabulary that will help us. As well, I really enjoyed learning about the camera angles.

Agnés, Reyah, Poppy

We enjoyed the French trip as we did things such as watching the film Belle and Sebastian and learning about different camera shots in French and as a whole it was a good experience for us to practice conversational French.

Charlie

I really enjoyed the movie and learning about the different camera angles and what they were used for.

Molly F

"I really enjoyed the French day. The best part was being really interactive with the audience and answering the questions. It was really nice to get very involved with the whole day. I also liked learning about different cameras as it's not something you will learn in a normal lesson. The whole day was amazing! Merci!"

Sarah W

I really enjoyed the film but it was sad and I loved learning the chat up lines in French as that was funny and it was a great day being with our friends and learning French! Thank you very much for being able to take us on the trip. I had a lot of fun!

Jasmine N & Tami

*We really enjoyed the movie and spending the day learning new vocab. It was a very engaging event and encouraged us to participate, we also enjoyed learning chat-up lines such as *Ta mère est une voleuse, elle a volé les étoiles pour les mettre dans tes yeux!* (Your mum is a thief, she stole the stars to put them in your eyes)*

Thank you for organising Madame Helm and others.
