Wow! What an atmosphere! This performance was captivating throughout. A scary, sinister tone that was portrayed and carried by all of the girls, the set, the costumes and music. This really is a performance not to be missed.

Absolutely fantastic!

Wonderful! From the giant wolf sculpture in the lobby to the individual ones worn by the cast, the design and attention to detail elevated the entire experience.

I am Emily Borner's grandfather. I would like to express how impressed I was by the professional and captivating performance put on by your talented students. The dedication and hard work of the young actors, directors, and production team were evident in every aspect of the production, from the stunning set design to the masterful execution of the direction and choreography.

The students' commitment to their roles and the story they were telling was truly remarkable, and their performances were nothing short of professional.

The production was a testament to the creativity and talent of the students at Bedford Girls School, and I left the theatre feeling both inspired and entertained. It is clear that your school places a strong emphasis on the arts, and I am confident that your students will continue to produce exceptional work in the future.

Thank you for putting on such an impressive performance, and please pass along my sincere congratulations and admiration to the cast, crew, and staff involved in the production of "Company of Wolves."
