

### IB PYP Year 6 Exhibition Reflections

Matilda B: "I enjoyed learning about a new topic that I haven't really thought about before. I think I developed my research skills and how to make sure I have checked my sources and information on different websites."

Hattie: "The Exhibition was a really good way of practising being responsible for our own learning – we had to work independently with our group to get the Exhibition work done in time."

Ella C: "I learned how to work as a team effectively and if you work well together using your different skills you can make something really great which you can be proud of."

Tiggy Willcocks: "I liked presenting to the parents and then when they asked questions I could answer them knowledgeable so they were not confused. It has probably been one of my favourite projects I have ever done in school and I have learned even more doing it."

Charis Mills: "The Exhibition was a great way to show and reflect on everything we have learned in Junior School! It really made me think about the world and what happens outside of my daily life. Presenting to the parents and students helped us to use our communication skills so they are strong in the future."

Evie Laidlaw-Hansen: "I really enjoyed the exhibition because it was extremely fun but I also learned a lot about all of the other global issues and not just mine."

“ The Exhibition has been a great opportunity to express your passions to your friends and family.”

Chiara Richards: “I really enjoyed the exhibition as we were given freedom to our topic which gave us responsibility, but at the same time it was quite fun.”

Niamh O’Dell: “The exhibition was really fun and it was a good learning experience. I learnt lots about my topic and made some new connections.”
