

BEDFORD GIRLS' SCHOOL

GLG here to support the #BGSCommunity

Oluwatobiloba Apesin: Head Girl

Subjects: Maths, Further Maths, Physics and Classics

I have been at BGS since Year 7 and have greatly enjoyed my time at the school, learning, growing and becoming the person I am today. I hope to study maths or computer science at university. My love for all things geek has led me to start not only the AMCV club (the anime, manga, comic books and video games) but also co-founded the Lovelace Society, which is the Computer Science society within the school. I play the violin and I am a part of the symphony orchestra and symphony strings. I'm very excited to be the head girl of the GLG this year and I am looking forward to the upcoming academic year. If you have seen me around, don't be afraid to come and say Hi!

Scarlet Stokes: Deputy Head girl

Subjects: Economics, Philosophy and Religion and Textiles

I have been at BGS since year 5 and have loved every bit of it. I am not 100% sure what I want to do when I leave school but at the moment I plan on travelling for a year and then going to University to study philosophy. At school, I love to play sports but especially Lacrosse as I love playing in a team. My other hobbies include the economics society and the MUN club where we debate current affairs.

Alishba Khalid Diversity and Inclusion Captain

Subjects: IB Diploma - Biology, Chemistry, Maths Philosophy, English and French

I've been at BGS since Year 7 and have enjoyed my time so far at BGS. After finishing Sixth Form, I would like to study medicine or biochemistry at university. I love dance and in my spare time I sometimes choreograph them. I co-run the Islamic Society and the school's Diversity and Inclusion Student Voice so do get involved if that is something you would like to do!

Kimya Ghods: Service Captain

Subjects: Biology, Chemistry and Maths

I have been at BGS since Year 7 and am part of the Navy section at CCF, which has led to learning a lot of practical skills. As well as learning more about my subjects, I enjoy having a new hobby each week, cooking and reading. I'm really approachable so don't be afraid to speak to me!

Alice Hartshorn: Sustainability Captain

Subjects: History, Politics and Geography

I have been at BGS since Year 3 and I have really enjoyed my time here. When I leave BGS, I am leaning towards studying International Relations at university but I'm still not 100% sure! I play

netball in school which I really enjoy, and my other hobbies include skiing, baking and reading. I'm so excited to be in the GLG this year and I'm really looking forward to taking on the new role of Sustainability Captain!

Amy Hall: Sport Captain

Subjects: Geography, Economics and Maths

I have been at BGS since Year 5 and have made some lifelong friends and memories since joining the school. I am looking to go to University, and I hope to travel around Europe after completing my A-levels. I love being part of the hockey, lacrosse, netball and swimming teams at BGS, as well as playing hockey and netball outside of school. Along with my passion for sport, I also play the flute to grade 7 and enjoy watching Luton Town Football Club with my dad.

Anna Matthew: Junior School Captain

Subjects: Maths, Biology and Chemistry

My interests other than my subjects are sports and music. I joined BGS in Year 3 and have gained some of the best memories and friendships. I hope to be a part of a team which makes everyone's time at BGS enjoyable and memorable.

Athena Kurtti: Arts Captain

Subjects: IB Diploma - Physics, Maths, English, French, Music and Philosophy

I have been at BGS since Year 10, and hope to finish strong by figuring out what I'd like to study at university - I'm unsure, but am looking at either engineering, law, or music right now. I have a wide variety of interests because of how much I love to try new things, and some of my (many) passions include writing novels and going on long walks due to "accidentally" getting lost in nature. If you want to have a long conversation, come talk to me about what you've been listening to lately, or any art that you've found to be inspiring recently! I'll never turn down the chance to learn something new.

Emily Armitage: Parks House Captain

Subjects: Biology, Physics, Maths and Further Maths

I have been a student at BGS since I was in Year 5 and I am hoping to study either Maths or Mechanical Engineering at university. I play hockey and I regularly compete in show jumping competitions for school and other teams. In my free time, I enjoy baking cakes and then eating them!

Aimee King: Franklin House Captain

Subjects: Philosophy and Religion, Psychology and Politics

I've been at Bedford girls since year five and I cannot remember my life before being at this school. During my time at Bedford Girls, I have begun to learn my interests and this has led to me being passionate about social issues and further wanting to do a degree in social policy/sociology. When I'm not working, I'm usually rowing which I spend most of my time doing. I love meeting new people so feel free to speak to me whenever!

Mimi Seward: Hepburn House Captain

Subjects: Latin, Biology, Maths

I've been a student at BGS for eight years. I enjoy playing a number of instruments and was able to join and perform with a band in school; outside of school, I love to teach myself instruments and explore music. I have high hopes to go on to study Classics after BGS, and look forward to furthering my education and entering the workplace; hopefully to work in a museum setting.

Leah O'Reilly: Austen House Captain

Subjects: English Lit, Geography and Psychology

I joined BGS in Year 5. I don't really know what I want to study at university, but I am thinking of Geography, Psychology or some form of Business management as I want to own a business in the future - not really sure what yet. I enjoy singing and tap as extracurricular. I work at Tesco's stores Ltd and I enjoy watching TV in my downtime.

Avani Tambe: Chanel House Captain

Subjects: IB: HL- English, Maths, and History. SL- Spanish, Economics, and Physics.

I have been a student at BGS since year 5, and it has been such an amazing experience! My hobbies include singing, I am part of Bel Canto the school choir, as well as recently achieving my Grade 8. I also partake in a drama group called Redfords - acting has always been something I enjoy. In the future, I am looking to read English Literature, and then take up Law further.

Eliza Constantine: Nightingale House Captain

Subjects: Business, Geography and English Language

I joined BGS at the beginning of Year 8 after previously being in BMS for a year, with the intention to open myself up to more opportunities, in which this school provided. My interests include weightlifting, earning money and looking my best. In the future I wish to study Business in university and later start up my own company. I am really excited to begin my role as Nightingale House Captain, working alongside the GLG and my peers.
